"A visit to the museum"

I like learning about history. It's my favorite subject at school. Last month, I visited the Museum of Ancient History with my school Mr Ayman was our guide at the museum. There were a lot of amazing artifacts from Ancient Egypt. Ancient Egyptians used strong materials to make their statues and pyramids. It was a very exciting visit to the museum. We all really enjoyed it.

"My favorite games"

I want to tell you about my favorite games. When I was little, I really liked games that used a lot of imagination. I was very good at making up stories.I had some cuddly toys, and some action figures. I liked running, climbing, and playing tennis. I was quite good at football, too.

"Ancient Egyptian an artifacts"

We have so many artifacts. One reason is the climate. We have a hot, dry climate here in Egypt, so artifacts aren't damaged by cold and wet weather. This helps to preserve them. The Ancient Egyptians also knew that certain materials could last a long time. That's why they built the Pyramids with granite.

"A day on the beach"

The beach which is near our house is quiet and beautiful. I love to go there with my parents. We swim, surf, and play games on the sand. One day, we were swimming when I saw a glass bottle in the water. I wanted to put it in the trash, but my dad had a better idea. He wanted to write a message in a bottle and throw it into the sea.

"Eco-tourism"

Eco-tourism is a way of traveling that doesn't damage the environment. It's more sustainable than traditional tourism. It is also designed to protect nature. People stay in simple accommodation, not large hotels, and they mustn't travel in ways that cause lots of pollution. Eco-tourism is a good way for people to respect nature.

"Helping the community"

At school, we started a project called Community Help. We all had to choose something we could do to support other people or things in our community. There were lots of ideas. For example, some people wanted to start vegetable garden in the school to grow fresh fruit and vegetables. That was really popular. Other people volunteered to help clean trash from the river, so that animals' habitats are safer.

"Volunteering"

You learn many important life skills when you volunteer. You learn how to socialize and make friends with people who you don't usually meet. Volunteering also gives you confidence. It's amazing to see how quickly teenagers develop when they start volunteering. Fundraising helps the charities get the money they need. It's good to give back to the place where you live.

"Being a good citizen"

There are lots of ways to be a good citizen. You can volunteer to help your community. Be polite and kind to your neighbors. Help people who are old or sick. Call your neighbors to ask how you can help. You can offer to do their shopping or do jobs for them at home.

"A metal from Ancient Egypt that interests you"

Ancient Egyptians used a lot of materials. One of the metals I am interested in is gold. They made a lot of beautiful jewelry. It is valuable and durable. They used a lot of gold in Tutankhamun's tomb. When they covered artifacts in gold, they kept them in a good condition.

"Animals in Ancient Egypt"

The Ancient Egyptians loved animals and kept many as pets. They particularly adored cats. There was a cat in almost every house. They believed that cats looked after them and kept them safe. They were good pets because they cleaned themselves and kept the houses free of pests like rats and snakes.
